

Admin panel

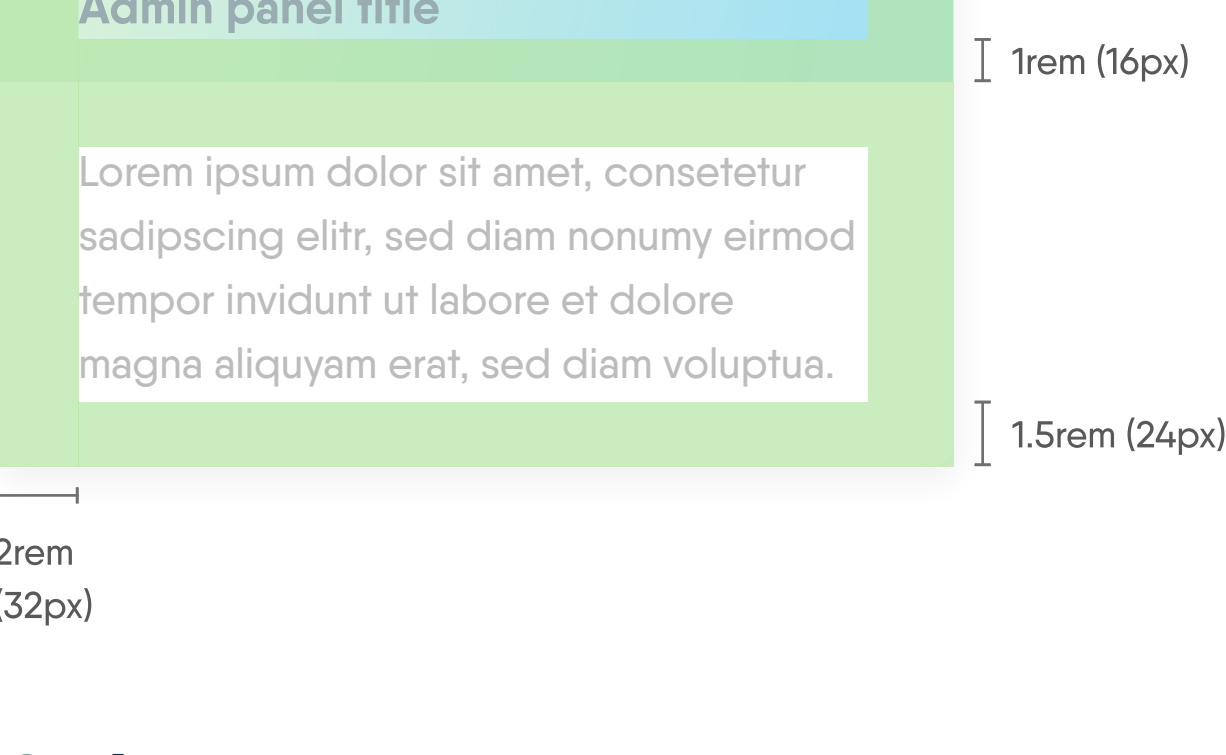

An admin panel can be used to group and seperate content within an admin setting.

Basic admin panel

A basic admin panel includes a header and body text. They can be used to group information under a heading. All will apply a drop shadow with a default colour of HEX #000000, 6px Y-axis and 12px blur with an opacity of 15% as default unless specified otherwise, this should have the ability to be removed if needed.

Admin panel max height

To control how much real estate the admin panel takes up on a page we can set a max height for the text within it to a pre-defined list. There are three heights for text to presented. Small with a max height of 12.5rem (200px), medium with a max height of 25rem (400px) and, and large with a max height of 37.5rem (600px). A fade equal to the padding at the bottom (1.5rem) should be added when the text is scrollable.

Admin panel with tabs

Admin panels can have tabs as a header. Selecting each tab will change the content shown within the admin panel content. The light & dark gradient and block colours can all be used as the highlight colour for the selected tab.
